

Strategy Overview – First Quarter 2021

SMID Cap Core Strategy

Investment Philosophy

- We believe an economic return framework is the most effective tool for measuring true corporate performance and valuing companies
- The Life Cycle concept is an important tool for identifying the correct path of analysis and managing portfolio risk
- Wealth creation is contingent upon management applying capital allocation disciplines appropriate to a company's position across the corporate Life Cycle
- We seek to invest in what we believe to be the best allocators of capital at a discount to intrinsic value

Portfolio Managers

Christopher Faber
Jeffrey Madden

Investment Approach

- Follows a bottom-up, fundamental approach
- Considered core, as it will hold stocks across the entire style spectrum
- Managed with a team approach
 - The portfolio managers are involved in idea generation, fundamental stock analysis, and portfolio assessment
 - They draw upon the vast amount of analysis performed by our U.S. Equity Research team
- Seeks to provide capital preservation in down markets
- Under normal circumstances, the SMID Cap Core Strategy (the "Strategy") invests at least 80% of its assets in equity securities of companies with small to medium market capitalizations (between \$100 million and \$10 billion at time of purchase)

Performance

	Quarter	YTD	1 Year	3 Years	5 Years	10 Years	Since Inception (3/31/2004)
SMID Cap Core Composite (gross of fees)	+8.73%	+8.73%	+82.67%	+19.51%	+17.54%	+12.32%	+10.83%

	ServisFirst Bancshares Inc	2.34%	Utilities	1.94%
	Eagle Materials Inc.	2.32%	Communication Services	0.88%
			Consumer Staples	0.00%

Performance for periods of greater than one year is annualized. Past performance is not indicative of future results, and there is a risk of loss of all or part of your investment. Performance is net of the RMB Asset Management's management fee charged to client accounts and transaction costs. Please refer to the following page for important disclosure information. Information above is based on a representative account as of March 31, 2021 and is subject to change. Actual client holdings may vary.

While "high-quality" has no single, strict industry definition, we define high-quality stocks as those that we believe offer more reliability and less risk based on a set of clearly defined fundamental criteria including hard criteria (e.g., balance sheet stability, operating efficiency, enterprise life cycle) and soft criteria (e.g., management credibility). We define well-managed companies as those that intentionally grow assets when their economic return on capital is above the cost of capital, are willing to shrink assets when economic return is below the cost of capital, and actively seek to improve economic return when it is approximately equal to the cost of capital.

SMID Cap Core Strategy

RMB Asset Management - SMID Cap Core Equity Composite // Annual Disclosure Presentation

Organization | RMB Capital Management, LLC ("RMB Capital") is an independent investment advisor registered with the Securities and Exchange Commission under the Investment Advisers Act of 1940 and established in 2005. The GIPS firm is defined as RMB Asset Management ("RMB AM"), a division of RMB Capital Management, LLC. Previously, the firm was defined as RMB Capital and was redefined on January 1, 2016 to only include the asset management business due to the difference in how its investment strategies and services are offered. RMB AM claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. RMB AM has been independently verified for the period April 1, 2005 through December 31, 2019. Verification assesses whether: (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis; and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. Verification does not ensure the accuracy of any specific composite presentation.

Description | The SMID Cap Strategy (formerly named IronBridge SMID Cap Core Equity Composite) product reflects the performance of fully discretionary fee-paying equity accounts, which have an investment objective of long-term growth that target investments in companies with relatively small market capitalizations (generally between \$500 million and \$10 billion at the time of initial purchase), that are undervalued as suggested by RMB Capital's proprietary economic return framework. The composite excludes portfolios that have client-driven restrictions that hinder the investment strategy. Beginning January 1, 2015, the composite excludes portfolios under \$2 million. Prior to that date, the composite excluded portfolios under \$5 million. For comparison purposes is measured against the Russell 2500 index. The inception date of the SMID Cap Composite is March 31, 2004 and the Composite was created on March 31, 2004. Beginning January 1, 2015, this composite has no significant cash flow policy. Until December 31, 2014, accounts were removed from the composite when significant cash flows occur, for the month of the flow and the month after. Significant cash flows were defined as 50% or more of the account value. Exceptions were made for flows that take the form of in-kind transfers, when the transfers are balanced according to our own investment model. In those instances, there is no material difference to the portfolio's weights after the flow, and thus no hindrance to the implementation of the investment strategy. This cash flow policy went into effect January 1, 2008. Prior to that date, significant cash flows were defined as 50% of the account value or \$15 million.

ANNUAL PERFORMANCE RELATIVE TO STATED BENCHMARK

Year End	Composite Assets			Annual Performance Results					
	Total Firm Assets* as of 12/31 (\$M)	USD (\$M)	# of Accounts Managed	Composite Gross-of-Fees (%)	Composite Net-of-Fees (%)	Russell 2500 (%)	Composite 3-YR ST DEV (%)	Russel 2500 3-YR ST DEV (%)	Composite Dispersion (%)

* Effective June 24, 2017 RMB Capital combined with IronBridge Capital Management. Firm AUM prior to 2017 includes only IronBridge assets. Going forward, firm AUM includes the combined assets of RMB Capital and IronBridge Capital. Prior to the combination, IronBridge Capital Management had been independently verified for the periods December 31, 2003 – December 31, 2016.

Fees | The standard management fee is 0.90% of assets annually, which is also the highest applicable fee. Net returns are computed by subtracting the highest applicable fee (0.90% on an annual basis, or 0.075% monthly) on a monthly basis from the gross composite monthly return, and the resulting monthly net figures are compounded to calculate the annual net return. In 2009, one account paid a performance fee that exceeded the usual highest applicable fee, at 0.96%. That fee level is used to compute the 2009 net figure, which is 26.89%. Actual investment advisory fees incurred by clients may vary. Composite performance is presented on a gross-of-fees and net-of-fees basis and includes the reinvestment of all income. The net returns are reduced by all actual fees and transactions costs incurred. The percent of non-fee paying assets in the composite is 0%. The annual composite dispersion is an asset-weighted standard deviation calculated for the accounts in the Composite the entire year. Prior to 2018, internal dispersion was calculated using the equal weighted standard deviation for the accounts in the Composite the entire year. Risk measures presented are calculated using gross-of-fees performance. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.

Minimum Value Threshold | The account minimum in the SMID Cap Core Composite is currently \$2.0 million. Prior to January 1, 2015, the composite excluded portfolios under \$5.0 million.

Comparison with Market Indices | RMB compares its Composite returns to a variety of market indices. These indices represent unmanaged portfolios whose characteristics differ from the Composite portfolios; however, they tend to represent the investment environment existing during the time period shown. The returns of the indices do not include any transaction costs, management fees, or other costs. Benchmark returns presented are not covered by the report of independent verifiers. The benchmark for the SMID Cap Core composite is the Russell 2500 Index, which for comparison purposes is fully invested and includes the reinvestment of income. The Russell 2500 is a subset of the Russell 3000, including approximately 2500 of the smallest securities based on their market cap and current index membership. The index does not reflect investment management fees, brokerage commissions, or other expenses associated with investing in equity securities. You cannot invest directly in an index.

Other | Past performance is no guarantee of future performance. Historical rates of return may not be indicative of future rates of return. Individual client performance returns may be different than the composite returns listed.

Past performance is not indicative of future results, and there is a risk of loss of all or part of your investment. The opinions and analyses expressed in this strategy overview are based on RMB Capital Management, LLC's ("RMB Capital") research and professional experience and are expressed as of the date of our mailing of this strategy overview. Certain information expressed represents an assessment at a specific point in time and is not intended to be a forecast or guarantee of future performance, nor is it intended to speak to any future time periods. RMB Capital makes no warranty or representation, express or implied, nor does RMB Capital accept any liability, with respect to the information and data set forth herein, and RMB Capital specifically disclaims any duty to update any of the information and data contained in this strategy overview. The information and data in this strategy overview does not constitute legal, tax, accounting, investment, or other professional advice. The information provided in this strategy overview should not be considered a recommendation to purchase or sell any particular security. There is no assurance that any securities discussed herein will remain in the Portfolio at the time you receive this strategy overview or that securities sold have not been repurchased. The securities discussed do not represent the entire Portfolio and, in the aggregate, may represent only a small percentage of their holdings. It should not be assumed that any securities transaction or holding discussed was or will prove to be profitable, or that the investment recommendations or decisions we make in the future will be profitable or will equal the investment performance of the securities discussed herein. A complete list of security recommendations made during the past 12 months is available upon request. An investment cannot be made directly in an index. The index data assumes reinvestment of all income and does not account for fees, taxes, or transaction costs. The investment strategy and types of securities held by the comparison index may be substantially different from the investment strategy and types of securities held by your account. The Russell 2500 Index combines a portion of mid-cap stocks with small-cap stocks – forming a "SMID" (small/mid) cap segment of stocks from the Russell 3000 Index. Mid-cap has been one of the highest performing segments of the Russell 3000 Index and repositioning these stocks – which by way of their market values receive larger weights within the Russell 2500 Index than in the Russell 1000 Index – can result in significant impacts in terms of index volatility and returns.
